HIDDEN FACTS ABOUT ROTTERDAM

Bold city of reconstruction

After the Bombardment of Rotterdam, Rotterdam was almost completely rebuilt. Instead of a historic city center like other Dutch cities, it embraced modern architecture and a skyline that keeps evolving.

Largest port in Europe

The Port of Rotterdam is the largest in Europe and one of the biggest in the world. It operates day and night and is a major reason why Rotterdam feels so international and raw.

City of architecture

From the cube houses to the Markthal, Rotterdam is a playground for architects. The city dares to be different and constantly reinvents itself.

Nightlife with a no-closing-time mentality

Rotterdam may have fewer bars than Amsterdam, but what it does have is seriously good. The focus is on quality, concept, and atmosphere, which is exactly why it has such a strong cocktail culture.

Deepest metro in the Netherlands

Beurs metro station is one of the busiest transport hubs in the city and lies deep underground. Typical Rotterdam: functional, large, and efficient.
